iPhone Management Profile Removal Instructions

These instructions are to remove the work profile that Intune created on your mobile device. If not removed you will not be able to add another organizations email client until you have done so.

1. Open your settings and select General 2. Select VPN & Device

4. Select Remove Management

1:13 III Settings General Cari Flay > iPhone Storage > Background App Refresh > Date & Time > Keyboard > Fonts > Language & Region > Dictionary > Legal & Regulatory > Shut Down >

5. Enter your Apple pass code

6. Proceed to remove management profile

3. Select Management Profile

Open you settings and search "Work Profile." Then select Uninstall work Profile

< Work profile	
Other security settings Change other security settings such as those for security updates and credential storage.	
Sounds Ringtone, Notification sounds	
Notifications and data	
Apps	
Full screen apps Choose which apps you want to use in the full screen aspect ratio.	
Accounts	
Google	
More settings Keyboard and input, Data usage, Printing	
Uninstall Work profile	

Depending on your model of Android your work profile will be in different places. Searching "accounts" from your settings menu will take you to one of the following places. Once you locate your accounts page you will select the "Work Profile" option and then "Remove Profile."
